The Congressional Award

Public Law 96-114, The Congressional Award Act

NJ11

Guneet Kapur

Dear Guneet,

On behalf of The Congressional Award National Board of Directors and team, I am pleased to inform you that you have earned The Congressional Award Silver Medal. We commend your willingness to give of yourself to voluntarily help others in the community and your achievements in personal development, physical fitness, and expedition.

If your Record Book has met the requirements for certificate-levels of the award, the certificates will be sent to you in an email from our team shortly.

Please be sure to read your approval email as well for any additional details regarding your awards. We will send your award to your Representative's local office so that they can help coordinate getting your medal(s) to you. You can email your Member of Congress or your region's Program Manager for more information if necessary, but note that we are recovering from delays from the US Mint so it may take some time.

While you are awaiting your Silver Medal, you may begin working toward the next level. We have already added an additional form to your Record Book so you can add more activity. Work with your Advisor to establish new goals or to plan new activities if you are still pursuing your initial goals. Feel free to use the Congressional Award Workbook on the Current Participants page of the website for your planning.

Congratulations for successfully completing the requirements to earn Congress' highest honor for youth. We are very proud of all you have accomplished!

Sincerely,

Shawn Whitman
Chairman
