ISEF Grand Prize Judging List

(in order of project number)

This list shows the projects selected for the afternoon judging of the ISEF Grand Prize.

Students must move their projects to the ISEF Grand Prize Judging area by 1:10 p.m. This area is located to the left of the Atrium stairway. If you need assistance, committee members will be available to assist you. Judging will run 1:15-3:00 in six 15-minute segments, with short breaks.

The ISEF Grand Prize Judging area will be open to the public 3:00-4:15 p.m.

NOTE: If your poster is on one of the upright panels, then just detach the poster, or the pieces of it, leaving the piece of velcro fabric on the panel, and we will supply new velcro in the new location.

AC.05: Aaron Yu
XNeoCrypt: An Interpretable Ranking Framework for Prioritizing Noncanonical Tumor Antigen Candidates

BE.10: Isha Ghiya
Engineering an Optimal Multilayer Dressing to Prevent Pressure Ulcers

BF.02: Darsh Dadhich
Discovering and Exploiting Novel Bidirectional Network Cascades in Glioblastoma Stem Cells: An AI-Guided Therapeutic Design Framework

BT.04: Ryan Wang
A Bayesian Framework for Gene Regulatory Network Inference Using Multi-Omics Data

CH.11: Shiven Das
From Computational Screening To Biological Validation: Targeting TNIK In Triple-Negative Breast Cancer

CN.04: Ahisha Ravi
Same Diagnosis, Different Care: Personalizing Depression Care Pathways to Reflect Individual Differences

CN.07: Agrima Verma
A Modular XAI Framework for Post-Hoc Explainability in High-Accuracy Alzheimer's Classification

CS.06: Qianheng Xu
TerraFormer: Multimodal Prediction of Soil Health Using World Models

CS.09: Ganghun Kim
A New Upper Estimate for the Fermat-Torricelli Ratio

EN.06: Guneet Kapur
A Motion-Capture Driven Humanoid Hand for Dance and Cultural Preservation

EP.04: Siddhanth Ganesh
Biochar for the Reduction of N2O Fluxes in Vertical Subsurface Flow Wetlands

PH.01: Sahil Ghosh
A Quantum Memory–Based Witness Protocol for Benchmarking Nonclassical Behavior in Quantum Processors
